

# United American's First Diagnosis Cash Benefit Cancer Policy

Up to \$50,000\* cash, one time, and you decide how it's spent

**Are you financially prepared if the doctor were to diagnose cancer?**

**Does your insurance coverage allow you the freedom to choose how to treat your illness?**

Now, more than ever, a cancer diagnosis brings with it an amazing number of treatment options in addition to more traditional methods.

However, traditional health insurance plans may not offer you the freedom to pursue nontraditional or controversial treatments ... or the choice not to seek treatment at all.

United American's Cash Benefit Cancer Policy is a cash benefit supplemental policy for first-time diagnosis of cancer only.

Choose a cash benefit amount up to \$50,000 to be used in whatever manner you see fit. Use it for any type treatment you and your doctor deem appropriate. Use it to help cover lost wages, pay the mortgage or other bills. Use it to take your family on a vacation, if you like.

## THE COVERAGE

- Choice of lump-sum cash benefit amount: \$10,000, \$20,000, \$30,000, \$40,000, and \$50,000\*
- Issue ages 0-69 (to 64 in CA); individual, single parent, or family coverage
- Only health of applicant considered for eligibility – heredity not an issue
- No physical exam required to qualify, just a few simple health questions
- Premiums will not increase as you age, only on a class basis by state
- Guaranteed renewable coverage until insured's one-time cash benefit is paid

## THE PAYOFF

- Pays maximum benefit amount in cash, as listed in the policy schedule, up to \$50,000\* for first diagnosis of internal cancer or malignant melanoma
- Pays in addition to any other insurance coverage you may have, even at a government or VA facility
- The money comes directly to you and you decide how it's spent — all of it — upon written satisfactory proof of first-time diagnosis of cancer while policy is in force
- You receive your total cash benefit whether or not you are hospitalized and whether or not you receive treatment
